## VAL

Simple architectural lines, extremely narrow edges and finely textured surfaces make the washbasins of VAL by Konstantin Grcic globally unique. Forms and textures not previously possible in sanitary ceramics are realised in an exciting collection which includes washbasins, WC and bidets, bathtubs, faucets and accessories.

SENTEC

## Sentec

Bathing in a bathtub made of solid surface material Sentec feels like being in a natural basin. Due to a high percentage of mineral particles, the surface feels smooth. The innovative material also allows an incredible freedom of design: almost every shape is feasible – from very organic to very straight and architectural. Furthermore the non-porous surface of the material is hygienic, durable, UV-resistant, highly resistant to scratches and can be effortlessly cleaned.
