saphirkeramik

Saphirkeramik

Saphirkeramik, patented and available on the market is one of the latest, globally significant innovation from LAUFEN. This revolutionary, ceramic material reaches its exceptional hardness blended with corundum, a colourless mineral, which is a component of sapphires. This gives Saphirkeramik a flexural strength equal to that of steel. Yet it has the potential to be wafer-thin, giving designers almost infinite freedom to experiment – and tear up the rulebook of bathroom design.
